

MANY NATURES
R. Bruce Hull
Infinite Nature, Chicago Press 2006

NATURE IS

Nurturing, providing, mothering
Competitive, indifferent, risky

Resources, jobs, wealth
Life, habitat, services

Pollen, flower, garden,
Wolf, pack, ecosystem

Human, ape, evolution
Created, perfect, God

Static, resilient, balanced
Dynamic, frail, disturbed

Known, measured, managed
Mysterious, chaotic, unpredictable

Pure, clean, healthy
Hurricane, fire, infested

Restorative, exciting, fun
Pest, plague, death

Wild, untamed, uncooked
Domesticated, feral, engineered

Remote, isolated, protected
Potted, planted, managed

Creative, persistent, other
Child, dependent, lover

Many natures
Which should exist?
